

QSS-2711DLS

The latest in KODAK digital imaging capabilities and the most advanced Noritsu digital print processing capabilities are combined in the QSS-2711DLS to create the perfect platform from which to expand your business.

- Line Extension. Allows for the integration of KODAK products and services like Picture Maker™ and PhotoNet™.
- Preview, select, and enhance images before printing.
- Digital Images. Accepts images from virtually any source, including digital cameras, floppy disks, Zip™ disks, and CDs.
- High Performance. Automatic printing of up to 1,250 5" x 3.5" prints per hour.
- New Digital Print Engine. The new Micro Light Valve Array (MLVA) print engine creates 400 dpi resolution digital prints on silver halide paper.

SPECIFICATIONS

PRINTER-PROCESSOR	QSS-2711DLS	
CHEMISTRY	RA-4NP	
DIMENSIONS		
LENGTH	76"	
WIDTH	32"	
HEIGHT	63"	
OPERATIONAL WEIGHT	1,750 LBS.	
TEMPERATURE	64°-86°F	
RELATIVE HUMIDITY	30-75%	
POWER REQUIREMENTS		
VOLTS/FREQUENCY	AC 220V, 1Ø 2W, 60HZ	
AMPERAGE	39A	
PAPER SIZE:		
AVAILABLE WIDTHS	3.5" THROUGH 12"	
PAPER ROLL LENGTH	590 FT.	
MAXIMUM ADVANCE LENGTH	18"	
DRY TO DRY TIME:	3:34	
PROCESSING CAPACITY: PRINTS/HOUR		
WIDTH	ADVANCE	RA-4NP
5"	3.5"	1,250
3.5"	5"	1,000
6"	4"	1,200
4"	6"	860

SM

The QSS-2711 DLS is available with the QSS-SM low volume, thin tank technology. See pg. 10 for more details.
